September 2020   Saadane Sisters High School Constantine, Algeria
Mention "Bien"

Projects

Toward Building a Secure Competitive Learning Platform for Machine Learning Challenges
Graduation project (Bachelor's degree)
https://github.com/MahaBourada/BotsCompete
Objectives:
This project aims to build a competitive learning platform that enhances students' learning experience through gamification and improves their computer science skills. Additionally, the platform simplifies the job search process by displaying relevant job opportunities posted by recruiters, making it easier for job seekers to find work.
Technologies used:
Model: MySQL
View: React JS
Control: node.js

College e-learning website
Mini project
Development of an e-learning platform using the MVC model.
Technologies used:
Model: MySQL
View: HTML & CSS, JavaScript
Control: Java (Servlets)
